9. Rationale of the Scheme

The Demerged Company and the Resulting Company are owned, managed, and controlled by the same promoter group. Both the companies are engaged in Agro Commodity Trading (i.e., business of trading in agricultural commodities including coriander), while the Demerged Company additionally carries on commodity trading in precious metals. The management believes that the Agro Commodity Trading operations within the two entities have developed as parallel verticals, each requiring focused managerial oversight and distinct operating frameworks. The management has determined that consolidation of the Agro Commodity Trading operations into a single, dedicated entity would lead to improved operational alignment, strategic clarity and optimal utilization of resources. Such consolidation is considered essential for enhancing efficiency and facilitating long-term sustainable value creation.

Accordingly, the Scheme proposes demerger of the Agro Commodity Trading business of the Demerged Company along with investment in equity shares of Resulting Company into the Resulting Company, thereby creating a streamlined structure. This will also help the Demerged Company to concentrate exclusively on its remaining business.

It is envisaged that the proposed re-organization would inter-alia achieve the following advantages:

(i) Segregation and transfer of the Demerged Undertaking (as defined hereinafter) of Demerged Company into Resulting Company;
(ii) Demerged Company as well as Resulting Company would have its own management teams, board of directors who can chart out their own independent strategies to maximize value creation;
(iii) The proposed demerger would enable greater/enhanced focus by the management of the Demerged Company in the Remaining Business of the Demerged Company. It will also allow the management of the Resulting Company to pursue dedicated growth opportunities and scale the agro commodity business.
(iv) Restructuring will provide an opportunity to build a stronger sustainable business as well as enhance the financial profile of the Resulting Company;
(v) It is believed that the proposed demerger will create enhanced value for shareholders and allow a focused strategy and specialization for sustained growth, which would be in the best interest of all the stakeholders and the persons connected with the aforesaid companies;
(vi) The demerger will also provide scope for independent collaborations and expansion.

In view of the aforesaid advantages, Board of Directors of Demerged Company and Resulting Company have considered and proposed the Scheme of Arrangement. The proposed restructuring is in the interest of the shareholders, creditors, employees and other stakeholders of both the companies.

D. PARTS OF THE SCHEME

This Scheme is divided into the following parts:

PART II – Demerger, Transfer and Vesting of the Demerged Undertaking from Demerged Company into the Resulting Company and consideration thereof;

PART III – General terms and conditions

E. RATIONALE FOR THIS SCHEME

The Demerged Company and the Resulting Company are owned, managed, and controlled by the same promoter group. Both the companies are engaged in Agro Commodity Trading (i.e., business of trading in agricultural commodities including

coriander), while the Demerged Company additionally carries on commodity trading in precious metals. The management believes that the Agro Commodity Trading operations within the two entities have developed as parallel verticals, each requiring focused managerial oversight and distinct operating frameworks. The management has determined that consolidation of the Agro Commodity Trading operations into a single, dedicated entity would lead to improved operational alignment, strategic clarity and optimal utilization of resources. Such consolidation is considered essential for enhancing efficiency and facilitating long-term sustainable value creation.

Accordingly, the Scheme proposes demerger of the Agro Commodity Trading business of the Demerged Company along with investment in equity shares of Resulting Company into the Resulting Company, thereby creating a streamlined structure. This will also help the Demerged Company to concentrate exclusively on its remaining business. It is envisaged that the proposed re-organization would inter-alia achieve the following advantages:

(i) Segregation and transfer of the Demerged Undertaking (as defined hereinafter) of Demerged Company into Resulting Company;

(ii) Demerged Company as well as Resulting Company would have its own management teams, board of directors who can chart out their own independent strategies to maximize value creation;

(iii) The proposed demerger would enable greater/enhanced focus by the management of the Demerged Company in the

Remaining Business of the Demerged Company. It will also allow the management of the Resulting Company to pursue dedicated growth opportunities and scale the agro commodity business.

(iv) Restructuring will provide an opportunity to build a stronger sustainable business as well as enhance the financial profile of the Resulting Company;

(v) It is believed that the proposed demerger will create enhanced value for shareholders and allow a focused strategy and specialization for sustained growth, which would be in the best interest of all the stakeholders and the persons connected with the aforesaid companies;

(vi) The demerger will also provide scope for independent collaborations and expansion.

In view of the aforesaid advantages, Board of Directors of Demerged Company and Resulting Company have considered and proposed the Scheme of Arrangement. The proposed restructuring is in the interest of the shareholders, creditors, employees and other stakeholders of both the companies.

Objective of the Proposed Demerger

The Demerged Company and the Resulting Company are owned, managed, and controlled by the same promoter group. Both the companies are engaged in Agro Commodity Trading (i.e., business of trading in agricultural commodities including coriander), while the Demerged Company additionally carries on commodity trading in precious metals. The management believes that the Agro Commodity Trading operations within the two entities have developed as parallel verticals, each requiring focused managerial oversight and distinct operating frameworks. The management has determined that consolidation of the Agro Commodity Trading operations into a single, dedicated entity would lead to improved operational alignment, strategic clarity and optimal utilization of resources. Such consolidation is considered essential for enhancing efficiency and facilitating long-term sustainable value creation.

Accordingly, the Scheme proposes demerger of the Agro Commodity Trading business of the Demerged Company along with investment in equity shares of Resulting Company into the Resulting Company, thereby creating a streamlined structure. This will also help the Demerged Company to concentrate exclusively on its remaining business. It is envisaged that the proposed re-organization would inter-alia achieve the following advantages:

- Segregation and transfer of the Demerged Undertaking (as defined hereinafter) of Demerged Company into Resulting Company;
- Demerged Company as well as Resulting Company would have its own management teams, board of directors who can chart out their own independent strategies to maximize value creation;
- The proposed demerger would enable greater/enhanced focus by the management of the Demerged Company in the Remaining Business of the Demerged Company. It will also allow the management of the Resulting Company to pursue dedicated growth opportunities and scale the agro commodity business.
- Restructuring will provide an opportunity to build a stronger sustainable business as well as enhance the financial profile of the Resulting Company;
- It is believed that the proposed demerger will create enhanced value for shareholders and allow a focused strategy and specialization for sustained growth, which would be in the best interest of all the stakeholders and the persons connected with the aforesaid companies;
- The demerger will also provide scope for independent collaborations and expansion.

In view of the aforesaid advantages, Board of Directors of Demerged Company and Resulting Company have considered and proposed the Scheme of Arrangement. The proposed restructuring is in the interest of the shareholders, creditors, employees and other stakeholders of both the companies.

Procedure performed

Procedures used in our analysis included such substantive steps as we considered necessary under the circumstances, including, but not necessarily limited to the following:

- Reviewed the draft scheme of arrangement;
- Reviewed the shareholding pattern of RCBPL and GTPL as at report date;
- Discussions with the Management to obtain requisite explanation and clarification of data provided;
- Analysis of other facts and data as considered necessary; and
- Determined the fair share entitlement ratio, for issue of equity shares of GTPL to the shareholders of RCBPL as a consideration for the proposed demerger of the Demerged Undertaking into GTPL;
- Arrived at the final share entitlement ratio for the proposed demerger.

Approach for Recommendation of Share Exchange Ratio

As mentioned earlier, as a part of the draft scheme of arrangement, the Demerged Undertaking of RCBPL is proposed to be demerged into its wholly owned subsidiary i.e. GTPL. RCBPL has identified all the assets and liabilities of the Demerged Undertaking which are to be taken over by and transferred to GTPL. Also, as a part of the Scheme, all the outstanding issued and paid up share capital of GTPL ('Pre Demerger Equity Share Capital') would be cancelled.

We understand that, upon the scheme being effective, all the shareholders of RCBPL would also become the shareholders of GTPL and their shareholding in GTPL would mirror their existing shareholding in RCBPL prior to the demerger.

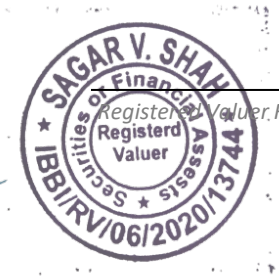

As per the draft scheme, the Share Entitlement Ratio is proposed as below:

"1 (One) fully paid equity share of INR 10 each of Resulting Company shall be issued and allotted for every 1 (One) fully paid equity share of INR 10 each held by such shareholder in Demerged Company."

All the shareholders of the Demerged Company will be entitled to become shareholders of the Resulting Company. Accordingly, Demerger will not essentially impact the economic and beneficial interest of shareholders of the Demerged Company.

In view of the above and considering that all shareholders of the Demerged Company, upon Demerger, shall be the ultimate economic and beneficial owners of the Resulting Company and that upon allotment of equity shares by the Resulting Company in the proposed Share Entitlement Ratio, the economic and beneficial interest of the shareholders in the equity of the Resulting Company will essentially be in the same proportion as it is in the equity of the Demerged Company;

We believe that the above Share Entitlement Ratio is fair and reasonable considering that all eligible Shareholders of RCBPL are and will, upon the demerger, be the ultimate economic beneficial owners of the resulting company and in the same ratio (inter se) as they hold shares in RCBPL. Considering the above, no valuation exercise has been carried out.

Conclusion

In the light of the above, valuation method analysed in **Annexure** and on a consideration of all the relevant facts, factors and circumstances and subject to our scope, limitations as mentioned above, we recommend the following share entitlement ratio of:

1 (One) equity share of GTPL of face value of INR 10 each fully paid up shall be issued for every 1 (One) equity share held in RCBPL having face value of INR 10 each fully paid up.

Yours Faithfully,

Sagar Shah
